

AXIS STRIVE

HR / RECRUITER DATA ADDENDUM

A product by Strive Pulse. Supplements the Axis Strive Terms of Service.

Effective Date: August 1, 2026

This HR / Recruiter Data Addendum (“Addendum”) supplements and forms part of the Axis Strive Terms of Service. It applies to every HR representative or recruiting company user (“HR User”) who accesses candidate information through the Axis Strive platform (the “Platform”). By creating an HR account or otherwise accessing candidate data on the Platform, the HR User agrees to this Addendum.

1. Purpose & Scope

This Addendum sets out the HR User's obligations when accessing, downloading or otherwise handling personal data of Students and candidates (“Candidate Data”) made available through the Platform in connection with a specific recruitment drive.

2. Nature of Candidate Data Accessed

- Identity and contact details: name, email, phone number
- Academic details: institution, CGPA, backlog status, year of study
- Resume and profile content: work experience, skills, projects, certificates
- Application status and interview scheduling details

3. Permitted Use

The HR User may use Candidate Data solely for the purpose of evaluating and recruiting candidates for the specific drive to which the Candidate Data relates. This includes reviewing applications, shortlisting, scheduling and conducting interviews and communicating with candidates about that recruitment process.

4. Prohibited Use

- Reselling, renting or otherwise transferring Candidate Data to any third party
- Using Candidate Data for marketing, advertising or any purpose unrelated to the specific drive
- Sharing Candidate Data outside the HR User's own recruiting team without the candidate's or institution's consent
- Retaining Candidate Data beyond what is reasonably necessary for the recruitment process described in Section 3

5. Retention & Deletion

The HR User is responsible for deleting or anonymizing any Candidate Data downloaded or exported from the Platform once the related hiring decision is finalized and the data is no longer needed for that recruitment process, except where retention is required by applicable law (for example, employment or tax recordkeeping).

6. Security Obligations

The HR User must apply reasonable technical and organizational safeguards to protect any Candidate Data it accesses or downloads from the Platform, consistent with applicable data protection law, including the Digital Personal Data Protection Act, 2023 and its rules.

7. Independent Liability

The HR User is independently responsible for its own handling of Candidate Data once accessed through the Platform. Strive Pulse is not liable for how an HR User uses, stores or discloses Candidate Data after it leaves the Platform's systems, except to the extent caused by Strive Pulse' own breach of the Terms of Service or Privacy Policy.

8. Breach Notification

If an HR User becomes aware of any unauthorized access, disclosure or loss of Candidate Data it has obtained through the Platform, it must promptly notify Strive Pulse and the relevant institution so that appropriate steps, including notification to affected candidates where required, can be taken without delay.

9. Relationship to the Terms of Service

This Addendum does not replace the Axis Strive Terms of Service or Privacy Policy; it supplements them specifically with respect to Candidate Data. In the event of any conflict between this Addendum and the Terms of Service regarding Candidate Data, this Addendum governs.

*** End of Addendum ***

Acknowledgement

This section is to be signed by a recruiting company's authorized representative to formally acknowledge this Addendum, in addition to acceptance through use of the Platform.
