4. The Basis on Which We Process Your Data

We process personal data on the basis of your consent, given at the time you register or submit information on the Platform and, where applicable, on the basis of a legitimate use directly connected to the purpose for which the information was provided (for example, an institution sharing student records with us for placement administration). You may withdraw consent at any time as described in Section 7, though this may limit your ability to use parts of the Platform.

5. Who We Share Your Information With

For Students specifically: your placement-related institution (through its TPO and authorized Faculty) is the party that determines what student data is collected on the Platform and for what purpose, in connection with your institution's placement process. We act as the technology provider processing this data on the institution's behalf. Beyond your institution, we share information as follows:

- With the specific companies/HR users you apply to or whose drive your institution forwards your application to
- With service providers who help us operate the Platform (e.g., cloud hosting, email delivery), under confidentiality obligations
- Where required by law, regulation or a valid legal process

We do not sell personal data to third parties for advertising or unrelated commercial purposes.

6. Data Retention

We retain personal data for as long as your account is active and as necessary to provide the Platform's services, plus a reasonable period thereafter to comply with legal, accounting or dispute-resolution requirements. You may request earlier deletion as described in Section 7, subject to any retention we are legally required to maintain.

7. Your Rights

Subject to applicable law, you have the right to:

- Access the personal data we hold about you
- Correct inaccurate or outdated information in your profile
- Request erasure of your personal data, subject to our legal retention obligations
- Withdraw consent for processing where consent is the basis for that processing
- Raise a grievance regarding how your data is handled (see Section 11)

Students should note that some data (e.g., academic records shared by the institution) may need to be corrected through your institution's TPO office rather than directly through the Platform.

8. Cookies and Similar Technologies (Website)

Our website uses cookies and similar technologies to keep you logged in, remember preferences and understand how the Platform is used. You can control cookies through your browser settings; disabling essential cookies may affect the Platform's functionality.

9. Children's Data

The Platform is intended for use by students enrolled in higher education (typically 18 years or older). We do not knowingly collect personal data from individuals below the age required for independent consent under applicable law without appropriate verifiable consent. If your institution's cohort includes users below this age, please contact us so we can put appropriate safeguards in place before onboarding.

10. Data Storage and Transfers

Personal data collected through the Platform is stored on cloud infrastructure operated by our hosting provider(s). Where data is processed or stored outside India, we take reasonable steps consistent with applicable law to ensure it remains protected. This section will be updated once our hosting provider and data region are finalized.
